

# **Journey of Good Vibes™ (JOGV™) Litepaper**

Spreading Positivity • Building Community • Driving Real Utility

© 2025 SaaR Media Group LLC · Community Project · Not Financial Advice

## 1. Introduction

Journey of Good Vibes™ (JOGV™) is more than a meme coin — it is a movement. Built on the Base blockchain (Layer 2 on Ethereum), JOGV™ represents positivity, resilience, kindness, community, and growth. The project's mission is to create a community-first ecosystem where token holders benefit from transparency, fairness, and shared growth.

## 2. Tokenomics

- Total Supply: 1,000,000,000,000 JOGV™
- Tax: 2% per transaction — directed to treasury & dev wallet for project growth
- Liquidity: LP tokens created and locked for 1 year (transparency ensured)
- Treasury: Contract builds reserves, which can be swept into the dev wallet via ``sweepAll()``
- Future: Staking, rewards, and ecosystem expansion features planned

## 3. Transparency & Security

Transparency and trust are cornerstones of JOGV™. All smart contracts are verified on BaseScan, and liquidity is locked until September 25, 2026. A public treasury and liquidity tracking document is published to ensure accountability. The development wallet and treasury are managed with clear processes, ensuring community-first principles.

## 4. How to Buy JOGV™

1. Install MetaMask (browser or mobile) and create/import your wallet. 2. Add Base Network manually: - RPC: <https://mainnet.base.org> • Chain ID: 8453 • Symbol: ETH • Explorer: <https://basescan.org> 3. Fund wallet with ETH (buy directly or bridge from an exchange). 4. Swap ETH for JOGV™ on BaseSwap: <https://baseswap.fi> 5. Confirm transaction. ETH auto-wraps to WETH as needed.

## 5. Roadmap

- Phase 1: Token launch, website, and community bootstrap
- Phase 2: Liquidity, charts, listings, meme + giveaway campaigns
- Phase 3: Merch drops, partnerships, and light game prototype
- Phase 4: Ecosystem growth with content, books, and community grants

## 6. Vibe Story — The Donkey in the Well

A farmer's donkey once fell into a well. At first, it cried, but then as dirt was shoveled in, it shook it off and stepped up. Eventually, it climbed out. The moral: life will throw dirt at you — criticism, setbacks, burdens — but with resilience, you can shake it off and step up to

freedom. This story embodies the spirit of JOGV™ — rising above negativity through positivity and growth.

JOGV™ is not financial advice. Always DYOR (Do Your Own Research).
